Updated to include the most current events and information on cyberterrorism, the second edition of Computer Forensics: Cybercriminals, Laws, and Evidence continues to balance technicality and legal analysis as it enters into the world of cybercrime by exploring what it is, how it is investigated, and the regulatory laws around the collection and use of electronic evidence. Students are introduced to the technology involved in computer forensic investigations and the technical and legal difficulties involved in searching, extracting, maintaining, and storing electronic evidence, while simultaneously looking at the legal implications of such investigations and the rules of legal procedure relevant to electronic evidence. Significant and current computer forensic developments are examined, as well as the implications for a variety of fields including computer science, security, criminology, law, public policy, and administration.

Avery is no stranger to the weight of loss, the way it shapes and defines the expanse of a life. The death of her sister, when Avery was just a child herself, engulfed her and her family—a mother driven mad, a father who disappeared, and all the while, neighbors and friends ignoring and surviving. The loss shades Avery's full being, becoming a deep part of her past and her future. As a young woman, Avery's life in Eastern Oregon ranch country is filled with an acquired family: her partner Davis Lovell, a ranch hand and father figure; Lennie, Lovell's daughter; and Davis's grandparents. When Avery suffers the loss of her and Davis's newborn child, it triggers and revives in her a familiar sense of guilt, one she has carried since childhood over the disintegration of her family. Written with the precision of Cynthia Ozick and the blunt passion of Alice Munro, this riveting story takes place on a landscape—the deserts of Eastern Oregon—itself a deeply important character in this remarkable first novel.

Bringing together conceptual obstacles and core concepts of evolutionary theory, this book presents evolution as straightforward and intuitive.

HE IS A MAN POSSESSED—BY A WOMAN WHOSE BEAUTY DRIVES MEN TO MADNESS. If there was ever a devil who could lure and seduce the innocent, Lord Sloan Treveryan is that man. Captain of the Sea Hawk and bound to the king ' s business, Treveryan may be a lord but he is no gentleman. Yet even he cannot ignore a lady in distress—or the temptation she provides. Bewitched by Brianna MacCardle ' s beauty, Scottish inquisitors have called her the devil ' s own. Though Treveryan saves her from the witch-hunter ' s clutches, how can she be grateful? He has carried Brianna off to America, claimed her, and taken her innocence. She vows that he will never capture her heart. But against her will she begins to fall in love—while swearing to reap revenge against the arrogant lord who has made her the devil ' s mistress.
