A very special collection of short biographies offers insightful sketches of the lives and accomplishments of 150 of history's most influential and brilliant women, including Clara Barton, the legendary Trung Sisters of medieval Vietnam, and many others. Ranging from an ancient Egyptian ruler (Queen Hatshepsut) to a contemporary athlete (Billie Jean King), these highly readable thumbnail sketches cover areas from literature to politics, fashion to aviation, music to science. The 120 entries offer concise overviews of specific women's lives and accomplishments, with a thoughtful blend of professional and personal details. In addition to often-profiled figures (Susan B. Anthony, Eleanor Roosevelt), the collection also includes less well known but influential women like the seventh-century Chinese ruler Wu Chao and Vietnamese activist Nguyen Thi Binh. The team of nine women authors (including Ashby and Ohrn) employs a conversational tone that encourages leisurely browsing. Many selections are prefaced with a revealing excerpt from the subject's writings, and each is accompanied by a photograph or artistic likeness. Ages 10-up.

An inspiring and radical celebration of 70 women, girls, and nonbinary people who have changed—and are still changing—the world, from the Civil Rights Movement and Stonewall riots through Black Lives Matter and beyond. With a radical and inclusive approach to history, Modern HERstory profiles and celebrates seventy women and nonbinary champions of progressive social change in a bold, colorful, illustrated format for all ages. Despite making huge contributions to the liberation movements of the last century and today, all of these trailblazers come from backgrounds and communities that are traditionally overlooked and under-celebrated: not just women, but people of color, queer people, trans people, disabled people, young people, and people of faith. Authored by rising star activist Blair Imani, Modern HERstory tells the important stories of the leaders and movements that are changing the world

Most people have heard of Susan B. Anthony, Harriet Tubman, Margaret Sanger, and Eleanor Roosevelt. But did you know that a female microbiologist discovered the bacterium responsible for undulant fever, which then led to the pasteurization of milk? Or that a female mathematician's work laid the foundation for abstract algebra? Her Story is a one-of-a-kind illustrated timeline highlighting the awesome, varied, and often unrecognized contributions of American women throughout U.S. history, beginning in the 1500s and spanning all the way through 2011. The women featured in Her Story range from writers, artists, actors, and athletes to doctors, scientists, social and political activists, educators, and inventors, and come from all backgrounds and philosophies. Her Story is a captivating look at America's often unsung female champions that will resonate with women and men alike.

Women have been doing amazing, daring, and dangerous things for years, but they're rarely mentioned in our history books as adventurers, daredevils, or rebels. This is the perfect read for anyone who wants to know what it means to explore, discover, play, climb, and fight like a girl!
