USB Cable into your new iPhone, then connect the other end to the adapter.

Use Quick Start to transfer data to a new iPhone, iPad, or ...

Most of the time, it should be very simple for you to activate an iPhone. If you've bought the phone new at an Apple Store, cellular provider, or major retailers, it's likely you already have a Sim Card installed. If it is not, however, you'll have to do insert the SIM card. Power the phone off then eject the SIM card tray.

How to Activate a New iPhone - Step-By-Step Guide

Check the list on the System Status page. If the box by iOS Device Activation isn't green, try to activate your iPhone later. If asked to enter your password as you activate your iPhone, enter the password. (A password prompt means that Activation Lock might be enabled in Find My iPhone.)

If you can't activate your iPhone - Apple Support

Today, I will show you how to use checkra1n jailbreak to bypass iCloud on any device from iPhone 5s to iPhone X. The idea is to do SSH via USB, as checkra1n uses SSH ramdisk, and delete /rename or patch the Setup.app running iCloud activation screen on your device.. This method is different from the Custom Firmware restore iCloud bypass method but the
