supine position. A time-out was taken and surgery was verified. Patient was then prepped and draped in the usual sterile fashion for ocular plastic surgery.

Operative Report Samples (10) | MTinformation

An operative report is probably one of the most common documents used in the medical world. An operative report is a patient's medical record written by a surgeon containing the important details of the surgery. It basically lists down the findings, procedure used, preoperative and postoperative diagnosis and the name of the people performing the surgery. When writing an operative report, you will be required to follow the standard
