Why do we struggle to find life beyond the rituals of existence? We know something is missing from life, but can't quite find the answer. Imagine searching for some understanding, some answer to the confusion of life, then suddenly realizing the simple truth. Others seem to find enlightenment and fulfillment, yet the answer alludes the average person. What is the root of this truth veiled in a mystery? All of my books are designed to aid you in your search for the answers to the riddle of life, giving the easy pointers to enlightenment and awakening. From the simple root of truth, the ultimate realization of truth appears. When the student is ready, the master appears. You are both, which is why you struggle to find life beyond practice. Within each of my books, I give differing perspectives to the same root truth: One Mind, One Heart, One Unity. Enlightenment is something you must realize, but clues to the process of realization are around you every day. This is a two-book set, featuring one book showing what Enlightenment is from its foundational principles, then a second book revealing the esoteric meaning of all ritual. By simply showing you the way to see, this book complements your path to enlightenment and higher nature. If you have ever wondered what meditation reveals to the mind, wonder no more. While its true I cannot lead you to realization, finding the way there is a journey we are all on. With some help, you can find your one true identity, your one true nature and your universal unity with all beings. This book is an introduction to this. Once you have been introduced, see my other two books in sequence. Bow with Unity reveals a deeper understanding to the two books here. Thus Saith the Flame to the Spark then expands these concepts into a textbook format of symbolism and higher learning. Setting you free by truth is the easy part. Setting truth free within yourself is the work you must do alone. Good luck, and I know you will love these two books.

Praise for Happiness Beyond Thought "Husband, father, scientist, military officer, and senior executive in industry and academia, Gary Weber has led a full and successful worldly life. Throughout all of this, Gary has relentlessly pursued a path of practice and inquiry in order to understand life and achieve enlightenment. It is rare to find one who has reached this goal, and rarer still to find such a one who has been so immersed in worldly life. With this book, Gary has successfully integrated his profound realization with traditional non-dualistic teachings, as well as insights from Zen Buddhism and modern brain research, into a practical path that uses Yoga's time-tested practices of asana, pranayama, chanting and meditation to illumine a path to enlightenment for the modern reader." -Gary Kraftsow, author of Yoga for Wellness and Yoga for Transformation "Gary Weber offers a treasure chest of practices for the serious practitioner seeking liberation. On your own journey towards awakening, savor these simple, easy to follow practices culled from Weber's study with his primary teacher Ramana Maharshi, his on-going exploration of Zen meditation practice, and the life-enhancing results of his experiments on the laboratory floor of his yoga mat." -Amy Weintraub, author of Yoga for Depression

Awakening: An Introduction to the History of Eastern Thought engages students with lively anecdotes, essential primary and secondary sources, an accessible writing style, and a clear historical approach. The text focuses primarily on India, China, and Japan, while showing the relationships that exist between Eastern and Western traditions. Patrick Bresnan consistently links the past to the present, so students may see that Eastern traditions, however ancient their origins, are living traditions and relevant to modern times. Updates to the Sixth Edition include a new introduction as well as new approaches to problem areas throughout the text, but with special emphasis in Chapter 5 (Ashtanga Yoga), Chapter 10 (Basic Teaching of Shakyamuni Buddha), Chapter 12(Mahayana Buddhism: Madhyamaka section) and Chapter 18 (Chan Buddhism: regarding the relationship of Chan Buddhism to Zen Buddhism). In addition, all references and source material have been brought up to date. The companion website includes two new videos and many new photos, produced by the author. New to this Sixth Edition:
• A new introduction that provides a helpful overview of each of the nineteen chapters and important connections between them;
• An improved explanation of the nature of Vedanta philosophy, and a more logical organization of the Key Elements of the Upanishads in Chapter 3;
• An extensive rewrite of Chapter 5, which deals with the subject of Ashtanga Yoga as expressed in the Yoga Sutras of Patanjali;
• A greatly improved presentation of Buddha's "Four Noble Truths" in Chapter 10;
• A total recasting of the teaching of Nagarjuna in the Madhyamaka section of Chapter 12;
• A clearer and easier to understand presentation of the teaching of the Dao De Jing in Chapter 14;
