In other words, positive education wants to bring positive psychology's goals of well-being and mental health support for everyone into the school setting. Psychological interventions have been around in schools since at least the 1930s, so it makes sense to supplement the already-existing traditional psychology in schools with positive psychology (Shankland & Rosset, 2017).

Positive Psychology In Schools and Education For Happy ...
One of the overall aims of positive psychology is to allow people's strengths and capacities to shine through their weaknesses or vulnerabilities (Seligman & Csikszentmihalyi 2000). In the school setting, this can be achieved when the following elements are incorporated: A safe, stable and secure physical environment
A psychologically safe space
