Write a killer CV and land your dream job. It takes an employer just seven seconds to save or reject a job applicant's CV. In this book, James Reed – chairman of REED, Britain's largest recruitment company – offers invaluable and specific advice on what employers want to see in the CVs they receive and how you can stand out from the crowd. Unlike other career development books, the honest advice presented here has been compiled from one-to-one interviews, surveys and countrywide workshops across REED's network of recruitment consultants. This book is an accessible and enjoyable read, intensely practical and packed with pull-out quotes, layout examples and tips. Find out what future employers are looking for and take the first step to start loving Mondays again.

As public accountability has increased and resources have become scarcer, public health, like clinical medicine, has been forced to re-examine the benefits and costs of its activities. Decision and economic analysis are basic tools in carrying out that mission. These methods have become standard practice in clinical medicine and health services research. This book, now in its second edition, was written in an effort to apply and adapt that experience with public health situations. The book was originally written to introduce Centers for Disease Control and Prevention staff to the concepts of decision and economic analysis, to provide guidance on methods to maximize comparability of studios, and to provide access to frequently used reference information. It has been adapted

to meet the needs of scientists and managers in state and local health departments and managed care organizations as well as students in schools of public health and clinicians for an introductory text --a text that shows how these methods can be applied in population-based practice, to facilitate better comparability of studies, and to solidify understanding of the scientific basis for use of these tools in decision making. Decision makers will learn how these studies are conducted so they can be critical consumers-- understanding the strengths and limitations-- and apply findings to policy and practice. The second edition updates and expands upon the standard methodology for conducting prevention effectiveness analyses. Each chapter has been revised or re-written. The chapters on measuring effectiveness, decision analysis, and making information useful for decision makers as well as several appendices are entirely new.

Contrary to popular belief, print is not dead! With all the interest in online publishing here in the 21st century, it's easy to lose sight of the fact that information is still widely disseminated through the good old medium of print. The advent of desktop publishing granted new levels of power and control to the layout artist and graphic designer, but it hasn't made the process of getting the perfect print foolproof. Sometimes managing the disparate elements of fonts, images, colors, and more, while dealing with the quirks of page-layout applications makes even the bravest designer and production editor long for the hands-on days of moveable type. Creating a great layout on your monitor is only half the battle; how do you make it work on paper? Print production expert Claudia McCue takes on the challenge of putting ink to paper, offering clear, authoritative guidance to print professionals and anyone else who has been frustrated by the obstacles of getting electronic documents to print perfectly. This new edition of Claudia's classic book is now fully Adobe-centric, and shows readers how to use the different applications in the Adobe Creative Suite 4 together to create and produce great print documents. Use Photoshop and Illustrator to create raster and vector images, and combine them with text in InDesign to create eye-catching yet readable page layouts. Learn the ins and outs of fonts, and gain a better understanding of how ink and paper work together. Finally, "preflight" or prepare your job for submission to a printer to make sure the printing process goes off without a hitch.
