Integrating contemporary art and themes into teaching requires a shift from predominantly technique-driven instruction to idea-driven instruction. Many artists do not work in a single medium or technique and instead try to explore an idea, event, situation, or question through multiple media and visual strategies.

Contemporary Issues in Learning and Teaching looks at current issues across the three key areas of policy, learning and practice. It will help you to think critically on your Education course, and to make connections between the processes of learning and the practicalities of teaching. The book addresses key issues in primary, secondary and special education, and includes examples from all four countries of the UK.
